Washington, DC 20554

Dear The Federal Communications Commission,

Dear FCC

I understand you are considering a FLAT FEE proposal for the USF
--and I am concerned that this will make my wireless service too
expensive.

My wife and I ONLY have a cell phone for emergencies, and have
paid the absolute minimum to have this vital service at very low
cost.

The fee you are considering adding will hurt our already
stretched finances...so,

PLEASE REJECT the flat fee propoasl.

Thank you,

Pete Peterson PO 721925 San Diego CA 92172

Sincerely,

Pete Peterson
